

Gold Hitter EA V4.0

Dear

Thank you for choosing our Gold Hitter EA for MetaTrader 4/5. We're excited for you to explore the capabilities of our software and witness its potential in real-time trading.

Quick Start Tips:

1. **Run on Demo Account:** Test the EA on a demo account first to observe its functionality risk-free.
2. **VPS for Best Performance:** For stable 24/5 operation, we recommend using a Virtual Private Server (VPS).
3. **Default Settings Recommended:** Use default settings for optimal results.

Important Notes:

- **Daily Trading Targets:** The EA disables stop trading after meeting daily profit targets and reactivate the next day.
- **Risk Management:** Update "Max Daily Loss %" to a comfortable value based on your balance.

EA Details:

- **Minimum Balance:** 2k
- **Chart:** XAUUSD M5
- **Prop Firm Compatibility:** 8.2/10 (Good)

Exclusive Offer:

Enjoy a special 25% launch discount on the purchase of the source code. This limited-time offer allows you to secure the full capabilities of our EA at an exclusive price.

Should you have any questions or need further assistance, please feel free to contact us at contact@goldhitter.com. Our team is here to support you every step of the way.

Best Regards.
